

## Accessing Remote App on an Apple Device

1. Install the official 'Microsoft Remote Desktop' app on your apple device from the app store:
2. Open Microsoft Remote Desktop on your device
3. Click the plus sign to add a remote resource

4. Choose "Add Remote Resource Feed" (May also be called "Add Workspace" on later versions)

5. Type <https://portal.northworthytrust.org.uk/rdweb/feed/webfeed.aspx> as the URL

6. Then click "Find Feed"

7. Add your user account. Type "NWT\" before your username, type your password and click "save"

8. You should now see your remote apps available. Simply touch to open a remote app.
